The MIRATECH® LTR®

New CARB Level 3+ Verified Diesel Particulate Filter System

*Best in class LTR (Low Temperature Regeneration) - regenerates as low as 500º F / 260º C*

- Designed for maximum reduction of particulate matter (PM) from engine exhaust – up to 97%
- Single housing assembly contains a DOC and a passive DPF
- Reduces CO, HC, VOC, HAP, and PM
- Designed for emergency backup and prime power generators
- Designed to accommodate engines sized from 37 kW to 4 MW
- Provides critical grade noise reduction, eliminating the need for a separate silencer in most applications
- Can be fitted on Tier 1 and newer engines

Carbon Steel Housings Standard with High Temperature Black Paint

Also available in 304SS

Designed with Easy Access Service Panels

Sales/Technical Support 800-640-3141

LTR® Passive Diesel Particulate Filter

ADVANCED FILTER SYSTEM TRAPS PARTICULATE MATTER AND REGENERATES AT MUCH LOWER TEMPERATURES.
Only from MIRATECH, the LTR® Filter System offers stationary diesel engine owners/operators new technology with a single housing assembly that contains a DOC (Diesel Oxidation Catalyst), a passive DPF (Diesel Particulate Filter) that's optimized for the Low Temperature Regeneration, and integrated silencing. The CARB Level 3 Plus Verified (California Air Resources Board) LTR system is designed for use with diesel engines at all operating conditions, including low exhaust temperature conditions/applications.

HOW IT WORKS
The LTR system has an oxidation catalyst (DOC) built into the front of the filter housing reduces the engine exhaust emissions such as CO, HC, VOC, and HAP before it enters the particulate filter (DPF). From there, DPF is designed to capture up to 97% reduction when required of particulate matter (PM or soot) from engine’s exhaust. The captured particulate matter is then burned off passively from the exhaust’s temperature through catalytic oxidation (no additional heat is required).

BUILT FOR PERFORMANCE
CARB Verified kit with manual, monitor, and data-logging is available that helps the user comply with current CARB rules.

FULL SUPPORT CLOSE TO HOME
Technical services and training provided by MIRATECH, along with field service from authorized MIRATECH representatives, ensures prompt, reliable product support is just a phone call away anywhere in North and South America.

NEED EMISSIONS AND ACOUSTIC SOLUTIONS? CONTACT MIRATECH!
For more than 20 years, MIRATECH has been at the forefront in helping industries handle emissions and acoustic standards. Whatever your emissions needs may be, count on MIRATECH for solutions. Just give us a call – or visit our website: www.miratechcorp.com.
