MIRA-CUBE™ Passive DPF/SCR System

NEW TECHNOLOGY WITH A SINGLE HOUSING ASSEMBLY
The MIRATECH MIRA-CUBE builds on proven MIRATECH technologies and offers stationary diesel engine owners/operators new technology within a single housing assembly. The MIRA-CUBE contains LTR™ low temperature regen DPF, oxidation catalyst, and SCR NOx reduction systems; which are assembled into a low profile, integrated package. This unique system is designed for diesel engines in the range of 1000 kW to 4 MW. The MIRA-CUBE is your solution for a combined single housing, prepackaged system.

EASY INSTALLATION & BUILT-IN SOUND ATTENUATION
The MIRATECH MIRA-CUBE system’s single housing assembly is modular. It also comes complete with mounting brackets that offer extreme flexibility to meet particular installation needs. It’s base configuration offers integrated sound reductions of 25 dB(A). Higher attenuations are available.

RETROFIT READY
The MIRA-CUBE may be retrofitted to existing engine applications and will control pollutants (NOx, CO, HC and PM) to EPA Tier 4 Final or better levels.

FULL SUPPORT CLOSE TO HOME
Technical services and training provided by MIRATECH, along with field service from authorized MIRATECH representatives, ensures prompt, reliable product support that is just a phone call away anywhere in the world.
